Equity Story
OUR BUSINESS MODEL

Our business model is based on six pillars:

**DOMINANT SHOPPING CENTRES IN CATCHMENT AREAS**

Our assets are located in relevant but low retail density areas, with limited competition around and high GDP per capita. All in all our shopping centres are winning assets in a moment of change and opportunity.

**COMBINATION OF ASSETS**

Differentiated asset typology that combines two product models that complement the portfolio. On the one hand, prime shopping centers. On the other, retail parks, 31% of the company’s GLA in a model that has shown great speed in the recovery of the business.

**MIX OF TENANTS**

Commercialization based in a solvent and diversified with big brands and high exposure to resilient activities. In each shopping centre, we have a large percentage of international leading brands and an optimal mix of shopping, leisure and F&B offering, essential to attract and engage customers.

**OMMNICHANNEL STRATEGY**

We see e-commerce as an opportunity not a risk. It is a new hybrid form of commerce, where customers shop seamlessly online and offline. They need to coexist. Stores play an essential role as showrooms, enhancing the in-store experience, and as logistics for brands.

**MANAGEMENT STRATEGY**

With more than 50 years of experience in retail, the company’s management applies its strategy and vision thanks to the full ownership of the acquired assets, which gives way to a complete decision-making capacity. A responsible management that has acted quickly and appropriately to the requirements of the Covid and with the ESG strategy integrated.

**STAKEHOLDERS MANAGEMENT**

Our strategy with key stakeholders includes Share Buy Back programmes with which to increase the value for our shareholders, together with an attractive, stable and responsible dividend policy. Profit and profitability together with the protection of the balance sheet and the responsible use of the company’s resources.
